

MODEL MK4-563RSM5

M K 4 - 5 6 3 R S M 5

FEATURES:

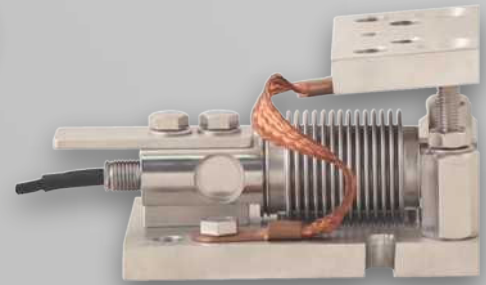

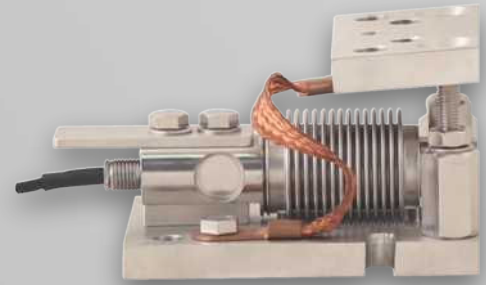

- CE, RoHS, and ExNepsi certified load cells
- Uplift protection and overload protection
- Allowance for thermal expansion
- Junction box equipped with corner trim pots
- Conventional wiring and color code

J04SS

MK4-563RSM5

Weigh Module Kit

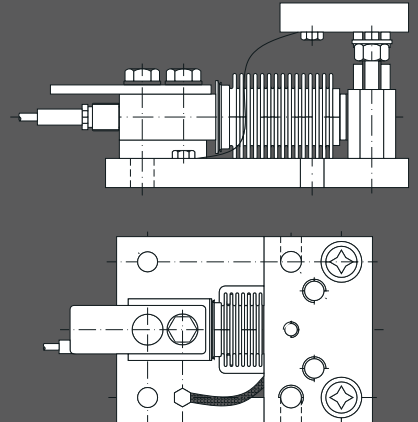

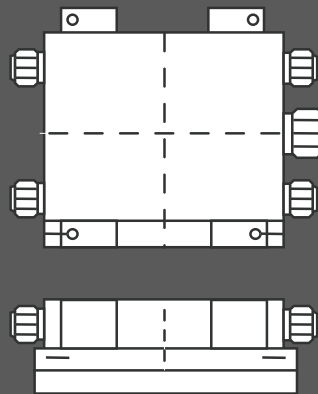

DESCRIPTION:

The MK4-563RSM5 offers a stainless steel constructed washdown IP68/69K certified waterproof product. The kit provides outstanding performance in hostile environments, built to last in any messy situation. The OIML and NTEP approved load cells deliver accurate readings for lower capacities up to 500kg. Common applications include batching/blending and chemical/food processing. Two slots on the baseplate facilitate ease of use. Each kit comes with an IP67 water-resistant junction box and 65ft of cable.
